

MEGA MANAGER

OFFICIAL STRATEGY GUIDE • AN ENGINEERING ONSITE ADVENTURE

4 BOSSES
+ 1 CTO

THE MANAGER ROSTER

28 HP EACH • WEAKNESS HITS FOR 4 • BUSTER HITS FOR 1

01

PARKER MAN

PARKER • MEETINGS

"LET'S CIRCLE BACK ON THAT."

WEAK TO
ESCALATION WAVE

DROPS
CALENDAR BLOCK

- 1 INVITE SPREAD** — a 3-way fan of invites, twice. Aimed the instant it fires — keep moving through the flash.
- 2 QUICK SYNC?** — a slow clock that homes and freezes. Don't fight it — outrun it and it expires in 5s.
- 3 RUNNING LONG** — jumps to the far corner and rains invites from the ceiling. Watch the sky, not him.

02

NATHAN MAN

NATHAN • THE BACKLOG

"IS THERE A TICKET FOR THAT?"

WEAK TO
CALENDAR BLOCK

DROPS
TICKET SPLIT

- 1 BACKLOG TOSS** — lobs a ticket onto your spot; it bursts into two subtasks skimming the floor both ways. Jump the burst.
- 2 SPRINT!** — a long telegraph, then a dash across the room. Jump it — he can't turn mid-sprint.
- 3 SCOPE CREEP** — a slow piercing ticket that swells to 3.5x over 7s. Get past it early or not at all.

03

ANDY MAN

ANDY • THE ROADMAP

"THIS IS A TOP PRIORITY. ALSO THIS."

WEAK TO
TICKET SPLIT

DROPS
PIVOT BOOMERANG

- 1 PIVOT!** — arrows that stall, reverse and come back — one at head height, one along the floor. Not over when it passes.
- 2 Q1 Q2 Q3 Q4** — four milestones hang, then drop in a random order. Read the order, stand in the gap.
- 3 REORG!** — teleports somewhere new, then an aimed 3-way spread. Reposition on the shout.

04

BRENT MAN

BRENT • THE CUSTOMER

"THE CUSTOMER IS ON THE LINE."

WEAK TO
PIVOT BOOMERANG

DROPS
ESCALATION WAVE

- 1 QUICK ASK!** — three fast aimed pages, then one more thing. Strafe — standing still eats all three.
- 2 ESCALATION!** — leaps onto you and lands two piercing shockwaves along the floor. Be airborne when he lands.
- 3 LAUNCH DAY!** — markers blink on the floor for 3/4s, then flame pillars. One marker is under you. Move.

↪ BRENT DROPS ESCALATION WAVE. WHICH BEATS PARKER MAN. THE LOOP CLOSSES

IT'S A CLOSED LOOP. Every manager drops the weapon the next one fears, and the last drop arms you against the first — so whoever you open with, you fight on the PR BUSTER alone. Pick your first victim, then never break the chain.

HQ • CTO MAN

DANIEL • "THIS MEETING IS NON-NEGOTIABLE."

PHASE 1 • THE ALL-HANDS MACHINE

WEAK TO: TICKET SPLIT

The armor deflects everything. Only the cockpit takes damage, and only while its shutter is up between attacks — it sits at jump-shot height, so jump and fire into the gap the moment it opens.

MANDATORY ALL-HANDS • BACKLOG DUMP • 5-YEAR ROADMAP • EXEC ESCALATION

PHASE 2 • THE ESCAPE POD

WEAK TO: CALENDAR BLOCK

He bails out into a pod that flies, teleports and ignores gravity. Between attacks it sinks into jump-shot range to taunt you — that hover is the whole window. Switch weapons before it drops.

SKIP-LEVEL! • ALL-HANDS! • DOUBLE-BOOKED!

NO RETRIES AT HQ. Lose to him — or quit the fight — and the run ends REORGED and gets scored anyway. Every manager you beat still counts.

PRO TIPS

- ▶ **Seven hits, not twenty-eight.** Every boss holds 28 HP. The weakness weapon takes 4 a hit; the PR BUSTER takes 1.
- ▶ **CRITICAL! is the receipt.** If that word isn't flashing, you brought the wrong weapon.
- ▶ **They enrage at half HP** — extra volleys, shorter gaps. The second half of a fight is not the first half.
- ▶ **Mashing is wasted.** A boss is invulnerable for 1/4 second after each hit, and every trigger pull that touches nothing costs you accuracy.
- ▶ **You can't get stranded.** Weapon energy refills one point every 0.7s, so the weakness weapon always comes back.
- ▶ **Spread beats spray.** Accuracy counts trigger pulls that landed — a 3-way shot counts once, whether one pellet hits or three.
- ▶ **Pause is free.** The fight clock stops, and intros, menus and boss select never counted.
- ▶ **Retries are not free.** Time, shots and hits carry across every attempt in the run, including the ones you lost.
